Rights of the People

Over Two Billion Dollars Strong, They Smile at Legislatures, Snap Their Fingers at Courts, and Marching Onward to the Music of Jingling Millions Only, Grow Richer and Richer While the Masses Grow Poorer and Poorer.

The Titan Strides of the Giant

The onward march of the "trusts" in th's Liturations coal pool country is something phenomenal. Despite the fact that there is a Federal law prohibiting trusts new ones are being formed daily.

The trusts now in existence have in the aggregate the colossal capitalization of \$2,-The tendency to concentrate special in-

dustries and bring them under the domination of monopolistic corporations gathers force steadily.

force steadily.

Almost every branch of the manufacturing business has now its combination, or trust, which controls both output and prices.

Competition is crushed out by the grand exgregation of capital.

The small manufacturer finds that he must either join the combination or go to

the wall.

And in very many cases he has not even che cames to join the combination.

During the past six months over one hundred companies of ubnormal capitalization has been incorporated, designed to "take over" the business of scattered companies in the various fields of industry.

And this directly in the face of the fact that the United Sories supreme court has this the United States supreme court has decided even the radical combination, called the Joint Traffic association, to be a colonion of the unti-trust law.

THEY BOB UP IN A NIGHT. Trusts, indeed, are springing up much faster than suits to dissolve them can be

Only a few weeks ugo the Federal Steel company, capitalized at \$200,000,000, was incorporated in New Jersey.

Recent meetings have been held in New York City of the leading maguta-ture s of

acids and chemicals, with the view of forming a \$50,000,000 acid crust.

The American Multing company has been organized with a capital of \$30,000,000.

The Totacco Trust now floats a new combination called the Commental, to control formers and the company of t This is carf wized at \$75,000,000.

The captaillaries will be \$150,000,000.
The captaillaries will be \$150,000,000.

STATES INVITING TRUSTS.

By their liberal incorpation laws New Jersey and West Virginia stand out conepioususly in saviting great combinations of capital.

have been incorporated in New Jerley than in all the other States combined. The legislature of New Jersey, without regard to postical affiliations, have united

regard to political affiliations, have united in making awa favorable to forming corporations. They three done everything possible to make legal combinations of moneyed interests easy, contentat and comparatively inexpensive in New Jersey. The scheme of incorporation in "Jersey" is largely left to incorporation. Parties, by contain certificates of incorporation, get what is practically equivalent to a spe till act of the legislature giving the widest powers for business purposes.

OIL TRUSTS.

The great big typical trust is that of the and Gil company. Although specifically, nay, peremptorily,

forbidden by law from being a trust-It is a trust just the same.

This combination controls petroleum oil This combination controls petrolesim oil refineries in all the principal Northern rities of the United States, and it produces about 65 per cent of this country's total output of refined oil. It embraces forty or fifty smaller companies are controls the pipe lines laid for the transmitting of oil to tide water. It has for years absolutely controlled the market price of petrocum. In accordance with the mandate of the Federal courts the Standard oil trust started to "liquidate," but this has now been ostensibly in progress for years. The trust certificates are being formally canceled and the trustees are assigning to the owners. the trustees are assigning to the owners the legal title to the stocks which were for-merly held in trust. The big off combina-tions are as follows:

Total capitalization\$153,000,000

STEEL AND IRON TRUSTS.

The most gigantic stock of them all, as wegards stock capitalization, has just been formed in the State of New Jersey. It is called the Federal Steel company,

The objects of this Titau corporation are Mining of all kinds, manufacturing of all

Mining of all kinds, manufacturing of all kinds, transportation of goods, merchandise or passengers on land or water, building houses, structures, vessels, ships, boats, railroads, engines, cars or other equipment, whatves or docks; constructing, manutaining and operating railroads (other than railroads within the State of New Jersey), attained within the State of New Jersey), attained to rail of lamis.

Under the sheltering wings of this expansive and clastic combination will adoube gathered various existing industries.

An idea of the wast sums of money that have been concentrated in steel and from commanies may be gotten from this list.

WISE QUARANTINE SUGGESTIONS. Timely Warning to the Coming Leg-

If the legislature wants to put a stop to the legislature wants to put a stop to the legislature and often souseless enapsemble. Let it amend the law so as to profibit quarantine being declared by city or counts neitherfits except with the consent and under the direction of the State beath officer. That would fix it, as far as any legal ensemble could.—Houston Post.

The great democratic Post, always vigo bant for the welfare of the people of dear old Texas, speaks wisely and appropriately anent this matter of quarantipe, and we most hearthy indorse it

There is no sense or reason of meddling with our present quarantine system further than is stated by The Post. If our representatives act whally they

will steer other of any change in our presout rate, used and effective quarantine system which has protected the people of Texas from invasions of deadly and destructive epidemics of the death dealing and commerce destroying saffron plugue.

The universal scattiment of our people darough the coast region, and we believe of the State, is to let our present system glone. It has been proven to the satisfattion of all, as more safe and affording areaser protection to the lives and tracted wolfare of the people than use system of a board of health, which proved totally inadequate to control this drended

Louisiena and Mississippi.
Those States under that system now are caused for Texas were sown down we a yellow fever for the past two summers when U.Cu.ana's of people perished and ther tenamerce strally paralyzed, while grant old T. was, with her able State health off-

2,000,000 old Taxas, with her sale State health offi2,000,000 cer and his experienced curps of assist
ants, gave our State immunity from this
terrible alague.

1,750,000
Tais can not be said to be accidental
for Louisiana, our bouler State on the East,
was in a flame during the heated term with
yellow fever infection, which came right
up to the door of Texas, Lake Charles in up to the door of Texas, Lake Charles in the East and Monterey on the West, where it was held at bay and not a germ entered the Sinte. Here we feel that it is but just and proper to say that this was accomplished by the sunction executive ability of that long experienced State health officer, Dr. W. F. Elinit, abose practical knowledge of effective quarantine procedure and sanitation can not be surpassed, if equaled, by any mean in the South. He has given the proof of the and there is no room for by any man in the South. He has given the broof of this and there is no room for dount. He stood at the great gateway of Texas for eighteen years, through which the great ships from foreign ports entered, many of which were laden with yellow fever germs from the hatbeds of infection, and they were so ably handled and skilfully treated by this able sanitarian that there never was a germ left slive to reach our whatever.

never was a germ left saive to reach our whiteves.

When our late lamented Dr. Swearingen, who was State health officer, reached a critical needed in his administration, he always called to his able co-worker. Dr. Blunt, and claced him in the vanguard of diense. When he could no hower attend to the duties of the office he called Dr. Blunt, and after his death he was appointed. State bookin officer, and soon the State was surrounded with rollow fever, and all know how skefully and ably he protected and defended Texus from the grasp of that deadly enemy of the people of the Gailf States.

that deadly enemy of the people of the Galf States.

If the continuation of our present thoroughly tried and tested system of quarantine with Dr. W.F.Blunt at State health officer was left to a wore of the people it would carry by twice the trajority that our discounseled Governor Sayers received, because the assoftment of all stades of politics are atmost universally for it, and for him. The suggestions of the Pees for the regulation of cay and county quarantine should receive the attention of our legislators to amend the law to prohibit such quarantine exceed by the ambority of the State health officer.

This is all the limitation the people want on this subject, and if our representatives act in accord with the sentiment of the people and take the ristory of the past persalators to these masters as their guide.

per ber and take the fristory of the past per shring to these musters as their guide, they will promptly crush any n-adding in our present safe and tried system, by an-bitious sentienten who would supersede it by a cumbers me board of beatth with its proven defective power of application and give us a Mississippi or Louisiana condi-tion next summar.

Deadly Cancer Cured at Last!

to an early grave.

It is now easy to see why the doctors have failed to cure Cancer. Their theories have been all wrong, and hence their treatment misdirected. They have made the mistake of thinking that by cutting out the sore or ulcer, known as Cancer, the disease would be gotten rid of, and the patient restored to health. But the cruel knife accomplishes nothing, for the Cancer promptly returns, and is always more virulent than before. It has been demonstrated, beyond disease, because it is the only one which acts on the correct principle of forcing out the poisson and ridding the system of it forever.

S. S. S. never fails to cure the worst cases of Cancer, Scrofula, Catarrh, Eczema Contagious Blood Poison, Rheumatism, old sores, ulcers, etc., is matters not what other remedies have been used in vain. It is the only blood remedy which can cure obstinate deep-seated blood diseases, because it is the only cone which acts on the correct principle of forcing out the poisson and ridding the system of it forever.

S. S. S. never fails to cure the worst cases of Cancer, Scrofula, Catarrh, Eczema Contagious Blood Poison, Rheumatism, old sores, ulcers, etc., is matters not what other remedies have been under the correct principle of system of it forever.
